# COURT DECISIONS.

DIGESTED BY W. B. MARTIN  
EXCLUSIVELY FOR  
VIRGINIAN-PILOT.

Notes of Cases Recently Decided  
Which Are of Interest to  
Our People.

STATE v. McLAUGHLIN.  
Supreme Court of North Carolina.  
April 1, 1900.

IN A CRIMINAL CASE IT IS ERROR TO ASK THE MAGISTRATE WHO HAD COMMITTED THE PRISONER WHETHER THE TESTIMONY OF THE PROSECUTRIX AT THE TRIAL WAS SUBSTANTIALLY THE SAME AS AT THE PRELIMINARY EXAMINATION, AS THE QUESTION WAS FOR THE JURY.

The Court says:  
During the trial the prosecutrix, Harriet McMillan, was examined and cross-examined. The defendant examined the committing justice of the peace as to the evidence of the prosecutrix before him, who recited her evidence fully to the jury, for the purpose of showing discrepancies in her statements. The State, on cross-examination, proposed to ask the witness "If the testimony of Harriet McMillan, the prosecutrix, in this court, was substantially the same as it was on the hearing before the committing justice of the peace." The objection of the defendant was overruled, and the question admitted, and the defendant excepted. The witness said: "She testified to the same on both trials." The admission of this question and the answer was error. The general rule of law is that the jury (or judge, as the case may be) are the triers of matters of dispute, and form their conclusions from the facts before them, and not from the opinion of others on those facts. So that facts, and not opinions, are to be listened to by the jury. To this general rule there are some exceptions: (1) The opinion of experts. (2) Opinions on the question of identity. (3) Opinions received from necessity; i. e. when, from the nature of the subject under investigation, no better evidence can be obtained. Illustration: Whether A. was sick on a certain day. The opinion of a person, who saw him on that day, and A. appeared sick, is admissible. The prosecutrix is not embraced within these exceptions, and he therefore falls under the general rule. That is the case in this instance. Whether the prosecutrix is the same as the prosecutrix on the former trial, and the jury would determine whether the two statements were the same or not. The converse of the principal is stated thus: "To impeach the credibility of a witness by proving that he swore differently as to a particular fact on a former trial, it is not necessary that the impeaching witness should be able to state all that the impeached witness then deposed to. It is sufficient if he is able to prove the repugnancy as to one particular fact, in regard to which it is alleged to exist." There must therefore be a new trial in the criminal court, and it is so ordered. The judgment of the superior court was correct, and it is affirmed.

## AMUSEMENTS.

"THE BELLE OF NEW YORK."  
A very brilliant play; a pleasing dispenser of drill care; a combination of music and mirth, full of ginger. "The Belle of New York" is designed to attract and please the multitude, and the vast audience at the Academy of Music last night is evidence that it attracts, and the enthusiasm created denoted that it had filled its mission. This class of musical comedies has grown to be very popular, and "The Belle of New York" is one of the best of the class. It is replete with tuneful music and up-to-date comedy; its lines are catchy and its movement rapid and spectacular; it is dressed in a rich garb of scenic effects and handsome costumes, and the very large company advances an excellent chorus of handsome and shapely girls, who are also able to sing. The cast, both male and female, is in the hands of competent people.

"KING RASTUS" TO-NIGHT.  
If you want to enjoy a good laugh and forget your troubles for a few minutes, go to the Academy of Music to-night. Billy Kerstand heads the fun-makers, assisted by Smart and W. H. Dudley, Tom Brown, Evans, La Rue, Bertie Ornes and a large chorus. The management promise fun from the beginning to the end. "King Rastus" is light up-to-date and contains, besides nothing else, all of the latest songs, dances and dances of the hour. Sumptuous specialties are introduced by the leading members of the company and the entire production is one of music and mirth.

## TRAINED NURSING.

Remarks about Nourishing Food.  
"A physician's wife, Mrs. Dr. London, gave me a box of Grape-Nuts about a year ago, with the remark that she was sure I would find the food very beneficial, both for my own use and for my patients. I was particularly attracted to the food, as at that time the weather was very hot and I appreciated the fact that the Grape-Nuts required no cooking.  
"The food was deliciously crisp, and most inviting to the appetite. After making use of it twice a day for three or four weeks, I discovered that it was a most wonderful invigorator. I used to suffer greatly from exhaustion, headaches and depression of spirits. My work had been very trying at times and I had almost given up.  
"Now I am always well and ready for any amount of work, have an abundance of active energy and cheerfulness and mental poise. I have proved to my entire satisfaction that this change has been brought about by Grape-Nuts food.  
"The fact that it is pre-digested is a very desirable feature. I have had many remarkable results in feeding my patients with the Grape-Nuts, and I can't speak too highly of the food. My friends constantly comment on the change in my appearance. I have gained nine pounds since beginning the use of this food. bill that is up to the standard of the Pavilion. The theatre was taxed to its utmost capacity and the applause and laughter reigned uninterrupted from the rise of the curtain until the last act was over.  
The bill is evenly balanced and bright in original comedy and unique novelty. The program closed with a clever act by the Kimura Sisters, Japanese girls, who gave a wonderful exhibition of original acrobatic work. They are experts in gymnastic work and contribute one of the best acts on the bill.  
Boush and Gordon, the plantation singers and dancers, also pleased. Castellat and Hall, in Geo. M. Cohen's created a better amount of fun and laughter. Another good acrobatic act was that of Gordon and Boush, whose clever work had mixed in it a lot of good comedy that was quite refreshing.  
Collins and McDele presented a good musical act that went well.  
This will be the last week of vaudeville at the View. Two performances daily—1:30 and 8:30 p. m.

# COMMON COUNCIL.

Appropriation of One Thousand Dollars for Galveston Sufferers.

Another Polling Place Established for Atlantic City Ward—Mr. Camp Makes a Statement of the Action of the Board—Mr. Jenkins and Judge Brooke Oppose the Adoption of the Majority Report.

A special meeting of the Common Council was held last night to hear a report from the special street committee approving the resolution for improving the five avenues of Brambleton Ward, namely, Claiborne, Highland, Willoughby, Reservoir and Windsor, and to consider the Atlantic City Ward precinct question.

The Council was called to order by Col. J. Frank East with the following members present: Messrs. Tilton, Beauman, Kierman, Camp, Whitehurst, Old, Cousins, Wise, Cunningham, Denby, Stahl, Hannan, Fitzgibbons, Underdown, Mayo and Pitt.  
The Common Council concurred in the action of the Select Council for borrowing money to improve the streets.

Mr. Camp presented a report from the majority of the Local Board of Atlantic City in reference to the new polling place in that ward.

The Common Council concurred in the issue of no more than \$100,000 in bonds after the \$75,000 of streets shall be issued, till Brambleton Ward shall become an integral part of the city of Norfolk.

Resolution appropriating \$3,000 for taps for Brambleton Ward was adopted.

Resolution that all fees collected shall be paid back to Atlantic City and Brambleton Wards, which was referred to Finance Committee, was read and adopted.

The ordinance was read establishing two voting places in Atlantic City Ward, and giving the boundaries of the two precincts, called No. 1 and No. 2. One shall be called the old section and the other the new section. There were two reports, one from a majority of the Local Board of Improvement and another from a minority; also a petition from about seventy-five citizens recommending the adoption of the majority report.

Mr. Camp moved a suspension of the rules. Adopted. Citizens were invited to speak.

Mr. John B. Jenkins, speaking for the minority, said the Sixth Ward covers as much area as the whole city. The division into two precincts is not equal physically and numerically. He described the limits and spoke of the unequal division of the majority report. A careful estimate shows half on one side and half on the other, and is, therefore, convenient for all parties. It is inconvenient to go to Colley avenue and vote. The majority, or about 80 per cent. of citizens, are to be in the First Precinct according to the majority report. Nobody has asked what the Local Board of Improvement has to say. Arguments have been urged for that which are valid or sound. The precinct would be jeopardized and would be more Republican than it is now. The negroes will be thrown into the Second Precinct by the majority report.

Judge D. Tucker Brooke said that he had difficulty in arguing the case, because he could not find why anybody differed from the report of the minority. There is no reason for the shoe string district suggested by the majority report.

He stated how unequal the geographic and numerical proportions are. It is not more than one-sixth of the city, and the population is only one-third. There should not be any objection to the equal division of population and area. The political complexion of the ward cannot be changed by a division into precincts. An objection except by three members of the Local Board, who do not tell their reasons.

Mr. Little said he has been a resident of Ghent for five years. The population proposed by the majority report to vote is confined in a small area. Not one word has been said in opposition to minority report. It would be strange if the petition of so many of the citizens be ignored under Mr. Camp said that there had never been a statement of the boundaries before. Atlantic City Ward is to be divided into two precincts for the next election. We must not divide and divide again next year. The natural division is just where the board has placed it. Then the next precinct can be defined. Ghent is not all the ward. It is in kindness, but that section demands no more attention than Lambert's Point should have. A voting precinct is not to be on wheels, so as to be carried to every man's door. If a precinct be allowed to the Eastern district, what will be given to the Western district? What will be done when a third precinct is wanted? Many people have to walk six blocks. Under the arrangement of the minority report some of them must go twelve blocks. The Local Board's report accounts for no more than a number of the minority report does. The Local Board is careful of the interests of the ward.

Mr. Jenkins said that the gentlemen conceded that the division is unequal. The Local Board should do what is fair now and then make another division hereafter. That is fair, to Mr. Camp says the gentleman is looking at only one thing, now.

A. M. Cousins said this discussion ought to be in the Local Board. There was no motion for the adoption of the minority vote. The vote was taken on the majority vote, carried by 14 yeas to 2 nays. President East and Mr. Pitt voted "no."

Atlantic City Ward's request to borrow \$5,000 was approved.  
A resolution to inquire into the cost of extending Clay street from Church street to the physical end of Cove street, at a cost of \$2,500, with Belgian block.

Mr. East moved that the resolution be referred to the Finance Committee. Carried.  
Mr. Tilton offered a resolution inquiring who granted permission to the Norfolk Railway and Light Company

to lay a pipe on Plume street. Passed. Also, a resolution asking what the same company pays for water rent. Passed.  
Adjourned.

# WATT, RETTEW & CLAY.

Yesterday was a "big" day at Watt's.

Judging by your eager buying one would think that cold days were already here.

But, we expected it. Our Sunday's news of the arrival of Fall goods awakened your interest. The prices did the rest.

Why, we haven't done so much dress goods selling for a long time. Nor has any previous season ever opened more conspicuously.

Many of the new suits, coats, waists and skirts found ready sale.

Even blankets (tho' not advertised) sold freely. Some stores announced "sales" of blankets, but we doubt if one sold as many pairs as we.

Draperies and other home furnishings sold well, too. Wise housekeepers are now "fixing up" for Fall, you know. Perhaps you skipped our Sunday's news of

New Upholsteries so we'll print it again:—

New Tapestry Portieres—\$2.50, \$3, \$3.50, \$4, \$4.50, \$5, \$5.50, \$6, \$6.50 up to \$10 a pair.  
Couch Covers—reversible tapestry—deep fringe—\$4, \$5 and \$6.50.
